## EXTECH®

### Model 365515

#### ***Introduction***

Congratulations on your purchase of the Extech 365515 Water Resistant Stopwatch with Split Time, Two Competitor monitoring, Alarm and Calendar features. The accuracy of the watch is  $\pm 3$  seconds per 24 hours. Care of this stopwatch will provide years of reliable service.

#### ***Operation***

##### **NORMAL MODE**

1. In Normal Mode the Hours/Minutes/Seconds and the day of the month are displayed.
2. Press and hold the SPLIT/RESET button to view the Alarm On/Off.
3. To turn the Alarm ON or OFF, press the START/STOP button. A bell icon in the right-hand corner of the display is on when the Alarm is turned ON. Press and hold down the SPLIT/RESET button (the bell icon in the right-hand corner of the display is on when the Alarm is turned ON).
4. Press and hold START/STOP to view the calendar month.

**STOP WATCH MODE** (To access, press the MODE button once from Normal Mode)

When the Stopwatch Mode is first accessed, the U-FRrAl icons will
